BRITTEIN SAARET

1260	18.1.	2130-	BBC R York, Scarborough. Country lauantain kunniaksi. HAR/M
------	-------	-------	---

AFRIKKA

4760	30.1.	-1659*	TWR Mpangela Range. Lopetti ndau-kielisen lähetksen kuorolauluun ja kuulutukseen 'Radio Trans Mundial en Nda'. SEH
4820	30.1.	1730	R Botswana, Gaborone. Esitti paikallispoppia soittimella, jonka ääni muistutti epävireistä posetiivia. SEH

AASIA

5040	27.1.	-1742*	AIR Jeypore. 'Akashvani Jeypore' ja uutiskatsaus. SEH
------	-------	--------	---

OSEANIA

10320U	28.1.	1805-1920	AFRTS Pearl Harbour HI. Yllätti hyvällä kuuluvuudella, tylsällä phonein-showlla. Muut AFRTS:t pimennossa, yleensäkin olleet varsin hiljaa. SEH
15480	1.2.	1230	HCJB Kununurra. Kuuluu usein ja hyvin, selkeitä idejä lähes joka mx-kappaleen väliin. ARK

POHJOIS-AMERIKA

650	18.1.	2312-0110	KNR Qeqertarsuaq, GRL. Kuului Muhoksella putkeen noin kaksi tuntia. HAR/M
760	19.1.	0611-	WJR Detroit, MI. Sporttia. Kelit Muhoksella suosivat lähinnä Detroitin ja Chicagon seutuja. HAR/M
820	19.1.	0630-	WBAP Ft. Worth, TX. 'Newstalk 8-20 WBAP'. Alla CW-asema. HAR/M
1000	19.1.	0215-	WMVP Chicago, IL. 'Sportsradio 1000' selosti Chicago Bulls ottelua. HAR/M
1420	19.1.	0136-	WOC Davenport, IA. 'Talkradio 14-20 WOC'. HAR/M
1560	29.1.	0518	WQEW New York, NY. ARK
1680	9.2.	0500	WPTR Princeton, NJ. Hindi-format. Kuulutteli olevansa WPTR, ja nettiosoite www.ebcmusic.-

com. Myös WPTX kuulunut usein. JRX

KESKI-AMERIKA

11775	3.2.	-2204*	The Caribbean Beacon, Anguilla. Soitti ikivihreitä kuten 'Chicago' ja 'New York, New York' Gene Scott -mainosten lomassa. SEH
-------	------	--------	---

ETELÄ-AMERIKA

4865	18.1.	2212-	UNID. 'Radio Brasileiro Tiberas' tms. Saattoi olla ohjelman nimi. Onks tietoa, mikä tämä voisi olla? HAR/M
------	-------	-------	--

HAR/M = Hannu Romppainen Jari Ruohomäen mökillä **Muhoksella** 18.-19.1. 2xNRD535D ja 750-1000 m antennit. TNX JPR!

LEM 171 - DX-pedition Lemmenjoelle 07.-14.12.2002

Kuuntelemassa: Jyrki Hytönen (JHY, Kannus) ja Markus Salonen (MSA, Kylmäkoski)

Laitteina: AOR AR-7030 Plus ja Icom IC.R-8500 sekä nauhurit, md:t & LEM-antennit

'Olipa kolmen vuoden tauon jälkeen mukava kuunnella jenkkejä' - tämä ajatus jäi ensimmäisenä mieleen pedisviikosta. Koska kelit syksyn aikana olivat olleet melko mitänsanomattomat, niin NA-asemien melko hyvä kuuluminen oli yllätys. Etenkin kun ne olivat kuuluvilla pitkin päivää koko viikon ajan, saipa AHE:kin osansa keleistä edellisviikolla. Perille päästyämme lauantaiamuna noin kahdeksan aikaan AHE purkitti jenkkejä kahdelta radiolta. Saimme toiset antennit heti käyttöömmee, vaan totuttelu ja lähinnä vain yhden antennin käyttö vei kyllä parhaan terän kuuntelusta pitkälle iltopäivään, vaan riittihän niitä jenkkejä meillekin.. NA-asemia siis kuului koko viikon puoliltaöin lähes iltaan saakka. Tosin vain ajoittain kelit nousivat niin, että alkoi irrota parempiakin asemia. Suurimman osan aikaa asemat kuitenkin tulivat sen verran tikkuisesti, että uusien asemien irrottaminen oli työn takana. Ajoittain taajuuksilla oli kova pulina ja usein taas dominantit levittäytyivät lähes joka antennille. Eteläinen-USA jäi kaikkineen aika heikoille ja Kaliforniaankin kelit ulottuivat vasta perjantaina. Keski-Amerikka jäi lähinnä muutaman meksikolaisen varaan, myös Etelä-Amerikka jäi MW:llä varsin vaisuksi. Mukava sieltä oli kuitenkin saada kuuluville muutamia hyvin kuuluvia SW-asemia aloituksen aikaan keskipäivällä.

Kaukoidästä olisi odottanut asemia enemmänkin. Tosin japsien kuuluminen jäi vähän vaisuksi alussa, kun lanka ei toiminut. Langan siirto lähteväksi alkuperäisestä paikastaan auttoi, mutta loppuviikosta ei sitten enää ollut muuten keliä. Kiinalaisia kuului jonkin verran alkuvuikosta ja korealaisia parina iltana ihan mukavasti. Perjantai-iltana eivät kuuluneet sitten enää tavallisemmatkaan kiinalaiset. Australiasta ei havaintoa yrityksistä huolimatta, ja Thaimaa ja Filippiinit olivat myös melko pimennossa. Vaikka Intiasta muutama mukava asema kuuluikin mukavasti, jäi muistipaikkojen selaus yleensä parin-kolmen kuuluvan aseman varaan, siis paikallisidäikoina. Euroopasta Venäjä mukaan lukien, Iberiasta,

Afrikasta ja Lähi-Idästä ei sitten paljon mitään mainittavaa kuulunutkaan, mutta parempi niin päin, kun edelliskerralla oli kuunneltu lähinnä vain niiden alueiden asemia ilman ainuttakaan jenkkiä.

Lähes joka päivä tehty antennihommat/-tarkistukset hieman verottivat raporttisaldoa, etenkin kun joka päivä kuului jenkkejä metsään lähtiessä ja sieltä pois tullessa. Pyörimään jätetyt nauhat eivät tällä kertaa paljoa tuottaneet. Myös mm. puuttuvat lyhytaalto-oseanialaiset jäivät metsäretkien vuoksi lähes kokonaan kokeilematta. Kun kelit kuitenkin ennakko-odotuksiin verrattuna olivat hyvät, ja kun sääkin viikolla oli ihan mukava, pakkasta enimmäkseen alle 10 astetta, jäi peditionista ihan mukava fiilis. Kiitokset pedispaikan ja kelien haltijoille. (MSA).

CONGO DR

Radio Kahuzi, Bukavu, though rarely reported by Dxers, confirmed on the air, 6210 kHz, by a staff member who called in to VOA's CW "Talk to America" special on 1 January. Said primary language is French, but in the past they relayed some VOA news, and even Comm. World (GH/DXLD); and said that their power is 800 watts (Hans Johnson/Cumbre DX via DXLD) Communication

DJIBOUTI

The Broadcasting Board of Governors (BBG) has an anticipated requirement for a Contractor to supply two (2) 40 kW medium wave (MW) amplitude modulated and one (1) 50 kW high frequency (HF) transmitters including facility renovations at the Dorale Transmitting Station that is owned and operated by Radio-Television de Djibouti in the Republic of Djibouti, East Africa. The station is not owned or controlled by the BBG or by the US Government. Please note that only limited information on existing conditions is available. Interested offerors are

advised that this anticipated requirement shall include the fabrication, supply and installation of two 40 kW medium wave (MW) amplitude modulated transmitters (1170 kHz and 1539 kHz) and one 50 kW high frequency (HF) transmitter; integration of the new transmitters with the existing single tower MW antenna and HF log periodic antenna; and, the removal and disposal of existing transmitters and obsolete building equipment. This requirement shall also include a complete facilities renovation with new waterproof roofing, replacement of electrical and water supply systems, refurbishment of generators, painting, and replacement of plumbing fixtures, doors and air conditioning equipment. The Dorale station is located on the coast about 10 km west of Djibouti City. (via DXLD) MV Eko

Not ex-7255 at 0700 as I heard them both Feb
4: Checking 11770 at 0700 Feb 4 for HCJB-
Australia, I heard talk in unID language with lo-
fi audio. After a few minutes my brain locked
into the accent and
realized it was English, but hardly Aussie. It
was V. of Nigeria as recently reported on this
long-inactive frequency, confirmed by \\ 7255,
but not audible on 15120, as it sometimes has
been even at this late hour. No sign of HCJB ---
and no sign of Finland 11755 either. Wonder if
VON has three or just two transmitters going
now (Glenn Hauser, OK, DX LISTENING
DIGEST)

SWAZILAND

TWR Builds NEW SHORTWAVE
ANTENNA.

Soon, SoAfrica and Zimbabwe will enjoy better
reception, as engineers in Swaziland laid the
foundations for a new antenna at the tx stn in
Swaziland the first week of November. The
anchors and concrete bases for two addit towers
for the Zimbabwe antenna have been poured,
while preparations are underway to set up the
antenna so it can be in sce by Jan 2003. The
process wasn't without incident, as Steve
Stavropoulos will tell you, after receiving an
injury to his foot in the process. Steve is
recovering well and is looking forward to
completing the job. Please continue to pray for
this project.

INDIA

648 Early this morning at 2.00 am IST (2030 UT) while checking the MW bands, I heard test tone with extremely strong signals on 648 kHz. This continued till 5.53 am (0023 UT) when the tuning signals and ID of AIR Indore was given. Enquiries with the station officials confirmed that it was tests by their new 200 kW French made transmitter which is being used from last week. This replaces their old 100 kW transmitter. 882 Recently, while TWR Sri Lanka on 882 kHz was off air for some days, I could hear AIR Imphal there which is usually blocked by TWR. A reply to my email report to AIR Imphal has just been received stating that on November 17, 2002 they have commissioned a 300 kW transmitter replacing the old 50 kW one on this frequency. The Station Engineer has asked me to inform other DXers about this and he appreciates Reception Reports which must be sent to: R. Narasimha Swamy, Superintending Engineer, All India Radio, IMPHAL, 795001 Manipur State, India email: narasimhaswamy@yahoo.com
 (Jose Jacob, VU2JOS/AT0J, Hyderabad, Dec 24, dx_india via DXLD)

972 Nowadays better signals were noted from AIR Cuttack of Orissa State on 972 kHz. Enquires with the concerned officials of the

station confirmed that for the last one and half months, they are using the new 300 kW Thomcast transmitter replacing the old one of 100 kW. In the last week of October 1999, the main transmitting tower fell down during the Super Cyclone that struck the area and this station was off the air for several days then. I had been there soon after that for providing emergency Amateur Radio communications and saw the fallen tower. I could visit their studios and transmitters after a year also and then the main transmitter of 100 kW was operating with 50 kW, which was increased to 70 kW later. So, very recently, several high power transmitters have come up on MW for AIR like Indore 648 kHz 200 kW, Nagpur 585 kHz 300 kW, Itanagar 882 kHz 300 kW and Cuttack 972 kHz 300 kW. All India Radio domestic stations will continue on shortwave only as long as their transmitters

last. Any further new stations will be on FM only (and on MW in border areas) (Tenth Plan Working Group via EDXP via DXLD)

All India Radio has introduced several new frequencies for various services recently. To summarise, courtesy of Jose Jacob/DX-India, these include:

9425 kHz (Bangalore 500 kW) testing with the Home Service in English/Hindi at 0130-0530 and 0930-1230. Regular daytime service will be inaugurated

soon. 9470 kHz (Khampur) testing with the National Channel at 1320-0043; this is the same transmitter that was used for the External Service on 7410 to Europe in English and Hindi, hence the reason why 7410 has been missing since late November (however, a new 250 kW transmitter at Aligarh is lined up for regular use on 9470 soon).

9535 kHz (Chennai) testing with relay of AIR Delhi FM II programme. This transmitter was used for Vividh Bharathi Service on 10330. Presumed schedule is 0130-0530 and 0930-1230.

10330 kHz, AIR's Vividh Bharati programme on 10330 kHz is still heard with excellent reception, despite the absence of Chennai, as Mumbai, Delhi and Guwahati are still transmitting the same programmes on that frequency.

Every year thousands of Muslim pilgrims from India visit their holy place Mecca in Saudi Arabia for Haj. At this time AIR broadcasts special programmes in Urdu for those pilgrims. This year's special broadcasts are between 14 January to 14 March at 0530-0600 on 13620 (Bangalore) and 15770 (Aligarh). (Jose Jacob/DX-India 12 January) Communication

INDONESIA

From mid Dec till Jan 6th I was only able to hear the following stns here in the Philippines.

They are heard during local daytime or from 1000 onwards:

2899.1 RPDT2 Ngada, regular, very weak.

3266.4 RRI Gorontalo, regular.

3325 RRI Palangkaraya, regular, late fade in.

3344.8 RRI Ternate, regular.

3905 RRI Merauke, sporadic, but active at present.

3960v RRI Palu, regular.

3976 RRI Pontianak, irregular, but active at present.

4000.1 RRI Kendari, regular.

4606.5 RRI Serui, regular.

4753.3 RRI Makassar, regular.

4925 RRI Jambi, regular.

9524.9 Voice of INS, irregular.

9743.7 RRI Sorong, regular, but weak. Signs off at 0758*

11784.9 Voice of INS, irregular.

KUWAIT/IRAQ [non]

Received a vaguely worded eQSL for my report to the clandestine stn R al-Mustaqbal (The Future), which apparently transmits from Kuwait using 50 kW of power. I heard the stn on 1575 kHz. The

following response came from Iraqi National Accord, the opposition group behind the stn, from email address <wifaq_ina@hotmail.com> "dear Mika Makelainen: many thanks for your e mail in 16-1-2003 we would like to inform you that

Al-Mustaqbal radio stn usually bcs on the freq 1575 - 1580 khz 0f (m.w) sometime a bc jamming may occur to it creating by baghdad radio stn, running by Saddam's regime. we try to protect our bc which is the bc of the iraqi opposition from such interferences. Many thanks again and we hope that you won't stop writing to us best regards al - mustaqbal bc. (Mika Maekelaenen-FIN, dxing.info Jan 23) Topnews

KYRGYSTAN

Hit Shortwave on 4050 kHz broadcasting to Afghanistan

A station on the frequency of 4050 kHz, identifying as "Hit Shortwave", is broadcasting to Afghanistan. Thanks to a recording provided by DXing.info and research done by Bernd Trutenau, the language that is used in the talk programs has been identified as Dari by a WRTH correspondent in Tajikistan.

Talk programs have only been introduced recently to the programs, which initially consisted only of music and short announcements. Dari is almost identical with Tajik, and is the language spoken by ethnic Tajiks in Afghanistan. Kyrgyzstan's capital Bishkek is the likely location of the transmitter, but this has not been confirmed. Kyrgyz State Radio has been quiet about the programs, which would suggest a clandestine radio operation. (DXing.info, January 29, 2003, updated January 31)

PAKISTAN

Radio Pakistan, Islamabad, changes to domestic relays on SW: API-2: 5915 0045-0200; 9645 0600-1115; 5965 1615-1700; 6065 1350-1400 (Balti News); 1420-1428 (Sheena News). API-4: 7105 0200-0400 & 5080 (ex-7105) 1300-1800 (Current Affairs). Noel Green via BC-DX. Communication

RUSSIA

PAPUA NEW GUINEA

Wantok, Radio Light 93FM, the country's first Christian Broadcasting network hopes to raise 200,000 Kina to start a SW station in March this year. Late last year, the station also set up an agreement with state broadcaster, NBC to carry its 7 am and 7 pm news bulletins for its 300,000 strong audience (e-broadcast Asia via Richard Jary, Feb 4, Cumbre DX via DXLD)

TUVALU

Bob Girdo sent me this link to his website following a visit to the island and repairs at Radio Tuvalu. Note, the 621 kHz outlet is out of service and it could be some time before it's back on air.
