## **Eurooppa**

729	1.3.	1504-	RUS: Narodnye R, Samara. JHY/V
1386	12.3.	0700-1530	LTU: RFE/RL-programs. Correction! RFE/RL programs originate from a transmitter located at Bubiai, 15 km southwest of Siauliai, where there is a tower for TV/FM/MW. This location is in northern Lithuania. All acc. to info from Bernd Trutenau. BE
1395	28.2.	0438-	POL: Twoje Radio 6 Plus, Radzyn Podlaski. Ideissä mainittiin taajuus, joten taisi olla paikallinen aamumusiikkiohjelma. JHY/V
1404	28.2.	0430-	ROM: R Sighet. Aloitti oman ohjelmansa kuuluen hienosti. JHY/V
1584	28.2.	0620-	UKR: R Ivano-Frankivsk. JHY/V

## **Brittein saaret**

855	25.12.	0652-	UK: BBC R Norfolk, Norwich. JHY/V

## **Iberia**

1017	16.2.	1925-	RNE-5 Burgos. HAS/Y
1080	14.2.	2329-	R Mallorca. HAS/Y.
1080	14.2.	2255-	R Huesca. HAS/Y
1098	1.3.	1825-	E: RNE5 Almeria. Antoi paikallisbreikin aluksi oman idinsä. Huelvasta ei merkkiä. JHY/V
1098	28.2.	0555-	E: RNE5 Andalucia, Almeria/Huelva. Alueellista ohjelmaa, josta kahta Andalucian asemaa ei voi erottaa. JHY/V
1116	14.2.	0620-	R. Pontevedra. HAS/Y
1116	15,16.2.	0008-2255	R. Albacete kului pitkästä aikaa. Ehdin jo muutaman vuoden epäillä, että asema ei ole äänessä ollenkaan, mutta Lemmenjoella marraskuussa kuului jo toinen ss asema Pontevedran kanssa, joten ei auttanut kuin jatkaa kyttäystä. Nyt tuli 3 kertaa viikon aikana jopa idillä. HAS/Y
1152	18.2.	1925-	RNE-5 Cartagena. HAS/Y
1152	18.2.	1925-	RNE-5 Albacete. HAS/Y

## **Afrikka**

1584	2.3.	0530-	Ceuta: R Ole, Costa del Estrecho. JHY/V
4750	18.3.	0335-	SDN: Radio Peace, Nuba Mountains. Kunnon IDiä ei irronnut. Kieli

			oli paikallista, ei EE tai edes arabiaa. Yksi maininta Darfurista tarttui korvaan. Sinkku S3-4 ja kuuluvuus huono. JKH
4780	18.3.	1930-19.3.	<b>DJI: Radio Djibouti.</b> Tämäkin on aktivoitunut. JP DJI: RTD Djibouti (Doraleh). Siltä tosiaankin näyttää, että Djibouti on palannut ääneen lyhkäsillä. JKH
5005	16.3.	1830-	GNE: R Nacional de Guinea Ecuatorial, Bata. Nyt asema tuntuu kuuluvan/lähetävän myös illalla. JKH
11690	11.3.	0544-	AFS: R Okapi via Meyerton. Äänessä 0400-0600 UTC. Ilmeisesti releointi Meyertonin kautta. JSA
11845	12.3.	1622-	ASC: SW R Africa. Asemaa kuulemma häiritään Zimbabwen toimesta, joten uusia taajuuksia kokeillaan. Tämä lähetys lienee via Ascension. JSA

### Aasia

792	27.2.	1500-	CHN: Guangxi Satellite BS. JHY/V
1341	27.2.	1503-	KAZ: VOA Alma Ata. Taajuuden englantia puhunut asema olikin VOA. JHY/V

1602	26.2.	1540-	AFG: R Khost, Khost. Komeat tasaidit olivat jääneet levyille kuuntelijan ollessa vielä Keiteleen jäällä hiihtelemässä. JHY/V
4875	7.3.	-1830*	GEO: Radio Hara, Dusheti. Soitti pääasiallisesti instrumx, mutta ehti idata ennen lopetusta 1830 UTC. Audiossa toivomisen varaa, mutta sinkku peräti S9 +10dB. JKH
5428	28.2.	2126-2220	J: <b>JKM21 NHK Mihara.</b> NHK:lla on useita pienitehoisia (300-600 W) USB:llä toimivia asemia. Näistä mikään ei tunnu olevan jokailtainen tuttavuus. Tavallisimmasta päästä taitaa olla 3607.5 NHK Tokyo (Shoba-Kiki), mutta näin keväällä ei siitä taida enää olla toivoa, koska lähettää vain 0800-1300. JHY/V
15250	5.3.	1100-	TWN: Fu Hsing Broadcasting Station. Kuului ihan mukavasti. Kiitos (MR) vihjeestä. RAL

## Keski-Amerikka

1480	4.3.	0500-	DOM: HIAH R Villa, Santo Domingo. Soitti mukavaa bachata-musaa todennäköisesti WMDD:n kanssa kilpaillen. Ei ole lokattu muutama vuoteen, joten on ilmeisesti palannut ääneen inaktiivisen kauden jälkeen. Tnx PUL ja HPE tunnistamisesta. TEJ
1570	20.3.	0407-	MEX: XERF Cd. Acuna. Suurinpiirtein viimeinen sunnuntaiaamun länsiasema. ARK

## Etelä-Amerikka

1370	4.3.	0502-	CLM: Emisora Minuto de Dios, Barranquilla. Hieno id urkujen säestämänä, slogan "Una Emisora para la Gloria de Jesucristo". Kovasti uskonnollinen tämäkin. TK

3400	8.3.	0500-	BRA: Tentative: R Guaraja Paulista. Tuntui olevan //5045. Kuulemma väliaikainen 90:n taajuus, siirtynee 3385:lle? TK

6010.12	6.3.	0420-0600	CLM: LV de Tu Conciencia, Lomalinda. Hyvin kuului, saman tiimin Marfil ei. Aiheena erilainen Reino eli "Un Reino diferente". JVH/N
6139.8	1.3.	0600-	CLM: HJCU R Liber, Bogotá. Viime talvena kuuntelin tätä Melodia nimisenä, nyt Lider idit tulivat yhtä hyvin. Hienoa, että vielä aamukolombiaanoja bandilta löytyy. ## LEM203 GOURMET-PEDITION LEMMENJOELLE 4. - 11.12.2004

Osallistujat: Antti Aaltonen (ANA), Espoo  
Timo Reiniluoto (TRE), Helsinki

Laitteet: 4 kpl Japan Radio Companyn NRD-tyyppisiä vastaanottimia (1x525, 2x535 ja 1x545)

Ennakko-odotuksia reissulle kasvatettiin lähinnä ruoka- ja viinilistan teon kautta. Neljä viikkoa ennen retkemme alkua ollut myrsky laittoi DX-kuuntelulliset tavoitteet varsin köykäisiin raameihin. Tästä syystä päätimme panostaa poikkeuksellisen voimakkaasti kuuntelua tukeviin asioihin. Huolellisen valmistautumisen ansiosta retkemme ylitti odotukset. Kuuntelua, ruokaa ja liikuntaa sopivassa suhteessa joka päivä.

- 5.12. Yöllä joitain brasseja. Aamulla hyvät kelit USA:n itäisimmälle rannikolle (koillisosa ja kaakkosisosa) sekä Kuubaan. Jamaika tuli hienosti kahdella taajuudella (580 ja 700). Samoin aalloilla huomattiin useampia floridalaisia.  
Menu: Lohimedaljongit, keitetyt perunat, Lemmenjoen salaatti (jäävuorisalaatti, tomaatti, kuivattu tomaatti, krutongit). Juoma: Budvar.
- 6.12. Yöllä vaisuhkosti brasseja ja laplataa hajanaisilla taajuuksilla. Aamulla kohtuullisen voimakas orinocopiikki, jonka jälkeen noin 9 UTC ilmakehän häiriöt voittivat signaalit. Illalla pohjoistaivaalla revontulet.  
Menu: Härkäfajitas, Lemmenjoen salaatti. Juoma: Corona, limetti.
- 7.12. Yöllä taas tikkuamalla brasseja. Aamulla iberialaisia ja vaisuhkosti keskilännen jenkkejä. Antennien tarkastuskierroksen jälkeen noin 10.30 UTC bandilla joitain keskilännen jenkkejä vaihteellisesti.  
Menu: Karitsan fileepihvit, keitetyt perunat, Lemmenjoen salaatti. Juoma: Wolf Blass, Shiraz Cabernet Sauvignon, Red Label, 2002.
- 8.12. Yöllä tavanomaista paremmin brassit ja laplatalaiset, joukossa myös yllätykseksemme useita paraguaylaisia. Aamunavaus surkea, mutta kelit paranivat 10 UTC jälkeen tarjoillen suhinan keskellä vuorten ja luoteiskulman jenkkejä.  
Menu: Kanafileepihvit, curryriisi mausteisessa papukastikkeessa, Lemmenjoen salaatti. Leipäjuusto, lakkahillo. Juoma: KWV, Roodeberg, 2002.
- 9.12. Yöllä ei mitään. Jenkit nousivat noin 06 UTC tarjoten sekakeliä, vähän idästä ja lännestä sekä keskilännen dominantit.  
Menu: Poron sisäfileepihvit, keitetyt perunat, Lemmenjoen salaatti. Leipäjuusto, lakkahillo. Juoma: D.O. Maipo Valley, Cono Sur Reserve Cabernet Sauvignon, 2003.
- 10.12. Jenkkikelit 00.30 - 14.30 UTC. Yöllä ja aamulla seassa Karibiaa (CUB-PTR-DOM) ja Orinocoa. Päivällä luoteiskulman jenkkejä kiitettävä määrä. Graveyardit mukavasti auki.  
Menu: Pippuripihvi härän sisäfileestä, sipulipaistos, keitetyt perunat, Lemmenjoen salaatti. Juoma: Raimat Abadia, Reserva, 1999.
- 11.12. Jenkit alkoivat kuulua 2330 UTC. Kelit makasivat yön ja aamun keskilännessä ja vuorilla. Pienehkö notkahdus 04 UTC mahdollisti reilun tunnin nokkaunet. Radiot sammutettiin hymyn kare huulilla hieman yli kello 10 UTC, jolloin siirryimme keräämään muovipussiin pihan perältä viikon muita aikaansaannoksiamme. Ruokapuolella siirryimme normaaliin päiväjärjestykseen ja tilasimme Kolarin rautatieaseman ravintolasta hätäiset porohampurilaiset keskarin kera ennen junan lähtöä Helsinkiin.

Oheinen loki ei vielä ole lopullinen, sillä molemmilla kuuntelijoilla on vielä paljon nauhoja kuuntelematta. Näiltä osin palannemme lisälokien muodossa sitten myöhemmin, kun perheeltä, töiltä ja opiskeluilta jää aikaa.

### ASIA

567 12.1. 1530 Radio Pakistan Khuzdar  
576 12.1. 2300 Yunnan PBS, Satellite Channel, Kunming YN. Thanks to Jim Solatie and Qiao Xiaoli for clearing the confusion: I thought I heard an ID for Guiyang PBS, but it turned out to be an introduction of a program produced by Guiyang PBS and part of a national CNR program before the top of the hour. FM 105.8 announced in addition to 576 AM at 2300.  
576 13.1. 0249 O'zbekiston Radiosi, Toshkent, with 2nd national network that identifies as "Yoshlar Radiokanal"  
792 11.1. 0056 + Urumqi News Channel, Urumqi XJ  
792 12.1. 1535 Radio Nepal, Kathmandu  
792 13.1. 1400 Guangxi PBS, Nanning GX is the listed location, but there were two transmitters with the same regional program, with a lengthy echo, so there must be more than one transmitter here  
819 9.1. 1250 Shanxi PBS, Taiyuan SX  
891 9.1. 2315 Ningxia News Channel, Yinchuan NX  
900 9.1. 2340 CNR2 Golmud QH. In addition to the regular Chinese ID, there was an English-language ID at 0000: "China Business Radio"  
927 12.1. 2300 + Yunnan PBS, Kunming YN, perhaps "Xinwen Guangbo" (news channel). A rather clear ID, but I didn't believe my ears, because this is not listed anywhere. Consulting Jim Solatie helped - he had heard "Yunnan Traffic and Travel Radio" on this fq when visiting Kunming last year.  
954 11.1. 1550 DZEM Quezon City  
999 13.1. 0200 Xinjiang PBS, UNID QTH, XJ  
1026 9.1. 2300 Guizhou Satellite Channel, Jianhe GZ. Relayed CNR programming until the top of the hour, after that local.  
1026 12.1. 2300 Radio Thailand, Phitsanulok. "Sathaanii Witthayu Haeng Pratheet Thai ... Phitsanulok a ..." and local news

1062 12.1. 1328 DZEC Quezon City, "Radio Aguila"  
 1071 11.1. 1433 JOWM Obihiro, "STV Radio"

 1080 8.1. 1700 CRI Kunming YN  
 1089 15.1. 0105 AIR Udiipi, relaying AIR Mangalore  
 1107 11.1. 1359,1458 JOMR Hokuriku Hosō (MRO), Kanazawa/Nanao/Wajima. Nice IDs at times mentioned, even listing tx sites, but network programming for the rest of the hour.  
 1152 9.1. 2322 Bayannur PBS, Linhe NM. Finally I got a local ID from this one, and not just provincial Nei Menggu programming.  
 1152 12.1. 1502 Ras al Khaimah BS, Ras al Khaimah  
 1152 12.1. 1656 PBC Rawalpindi, no local programming, only "Radio Pakistan News and Current Affairs Channel"  
 1188 8.1. 1523 CRI UNID QTH, YN, with English programming at this time  
 1206 14.1. 1600 Jinling zhi Sheng, Nanjing JS  
 1215 8.1. 1420 JO... KBS  
 1224 14.1. 1258 JOJK NHK1 Kanazawa  
 1233 9.1. 1409 Nantong News Channel, Nantong JS, but ID only as "Nantong Renmin Guangbo Dientai"  
 1233 10.1. -1358\* DYVS Bacolod  
 1233 13.1. 1615 Hunan PBS, Yueyang HN. This should be News channel, but ID simply as "Hunan RGD"  
 1260 11.1. 1729 AIR Ambikapur  
 1269 10.1. 1615 CRI, UNID QTH in Yunnan, with foreign service programming in Hindi  
 1269 11.1. 1430 JOJR JRT Shikoku Hosō, Tokushima  
 1287 12.1. 2300 Sor. Or. Thor., Bangkok  
 1305 9.1. 1657 Yaan Kraw, Bangkok  
 1323 12.1. 1340 Thahaan Akart Thor.Or. 13, Chiang Mai  
 1341 12.1. 1700 Radio Pakistan Bahawalpur  
 1350 12.1. 2300 Kunming PBS, UNID QTH YN  
 1368 9.1. 1218 Chin Hsi BC, Kaohsiung  
 1395 8.1.13.1. 1622 1525 Anhui RGD "Life Radio", Hefei AH  
 1403.90 12.1. -1803\* tent. Thor Phor Neung, Suphanburi, with closing ceremonies and the national anthem, but without an ID that I would recognize  
 1422.15 12.1. 1313 DYSD Ubay, relaying 1161 DYRD Bohol  
 1467 10.1. 1616 Radio Extol, Bishkek  
 1476 9.1. 1200 Radio Studiya O'key, Vladivostok  
 1476.1 9.1. 1125 DXRJ Iligan  
 1476 13.1. 0129 + Xining PBS, Xining QH, identified based on their telephone number. I have even visited this boomtown back in 2002.  
 1494 11.1. 1425 JOYR RSK Sanyo Hosō, Okayama  
 1494 11.1. 1450 Nei Monggol PBS, UNID QTH, NM. According to PAL, this could be Hulun Buir PBS, Hailar NM, relaying the provincial program. Thanks to Qiao Xiaoli for confirming the ID.  
 1494 13.1. 0200 Xinjiang PBS, Korla XJ. The station was audible as late as 0230 UTC, but still no trace of local Korla programming (do they have any?), IDed only as "Xinjiang RGD"  
 1521 9.1. 2338 UNID in Mongolian, most likely Ulanqab PBS, Jining NM. Unstable transmitter. Does anyone understand Mongolian? I would have some very interesting recordings. If you can help, please email to [mika@makelainen.com](mailto:mika@makelainen.com)  
 1521 13.1. \*0100- CRI Urumqi XJ, signed on with Russian programming, overcoming a much more interesting Chinese station  
 1584 12.1. 1544 AIR Keonjhar with AIR Cuttack programming. Thanks to Alokesh Gupta and Jose Jacob for checking my recording!

1010 11.1. 1315 + KZNY Milwaukie OR, "Recuerdo". I first thought this would be KIQI which uses the same slogan, among others. Solving this was a long story. KZNY is supposed to be daytime only, but obviously isn't.

 1290 13.1. 0800 KGVO Missoula MT is not a rarity, but I wanted to mention it here because it was relaying 1240 KLYQ Hamilton MT, which was also the top-of-the-hour ID.  
 1290 14.1. 0905 KOUU Pocatello ID, at the same time as 1620 KBLI - good conditions to Eastern Idaho  
 1300 10.1. 11.1. often 1203 0800 KAPL Phoenix OR. Something weird has happened with this station. Earlier it used to be relatively rare, now the signal was constantly one of the strongest of the West Coast stations. Perhaps with daytime power through the night? More Eastern conditions brought KGLO, WOOD and WRDZ here.  
 1300 15.1. 0245 WXRL Lancaster NY  
 1310 8.1. 13.1. 1416 1300 KEIN Great Falls MT, with the dominating CHLW

 1609.92 10.1. 0312 CHSL Toronto ON, identified only using the slogan "Radio Voces Latinas", so the calls may already have changed to CHHA. Heard also on LEM205.

 1700 8.1. 2329 WEUP Huntsville AL, "The People's Station"  
 1700 9.1. 0637 KBGG Des Moines IA. A regular catch, but mentioned here, because heard with Serbian/Croatian programming and ID as "Most Radio - vashe radio" (meaning "Radio Bridge - your radio"). Alternating with KVNS  
 3815 USB 11.1. 2200 + KNR Tasiilaq. Perhaps the first time that this shortwave station has been heard outside Greenland. However, there used to be a MW transmitter in the same location, heard also in northern Europe.

 1230 12.1. 0612 XEEX Culiacán SN, "Radio Fórmula"

The top-of-the-hour ID included even the postal address. One of the slogans is "Las 1260 - mejorando tu vida diaria", which is indeed true!  
 1350 11.1. 0741 XETB Torreón CO, "Radio Laguna". Has anyone ever received a QSL from this one?  
 1450 14.1. 0832 XECU Los Mochis SN. The ID was really tricky. Many thanks to Mike Westfall and John Callarman who recognized the ID as XEORF 950, which occasionally seems to be relayed by XECU.

### **Jim Solatie (JMS), Espoo**

Seisemän vuoden peräkkäinen kolmensadan kusillin vuositähti katkesi lopulta. Vuoden 2004 saldo ylitti niukasti 200 vastausta. Tasan 70 % näistä tuli sähköpostilla ja vain 30 % perinteisellä tavalla.

Euroopasta nykyisin nopeimmin vastaavat sellaiset maat kuin Bosnia, Romania ja Serbia. Vasta näiden jälkeen tulevat saksalaiset ja ranskalaiset. Hitaimpiin lukeutuu ehdottomasti Italia.

AM-puolella puolestaan peditioneiden ensimmäiset ja varmimman vastaukset tulevat nykyisin Intiasta ja lattareilta. Hankalinta vastausten saaminen on thaimaalaisilta ja jenkeiltä.

Vuoden 2004 komein QSL oli ehdottomasti tambovilaisen rock'n roll-aseman Radio Goodwinin häikäisevä valokuvadiplomi, joka näytti kuin kirjapainossa painetulta, vaikka siinä oli täsmälliset, personifioituneet detaljit! En tiedä, miten venäläiset tämän tekivät, mutta komealta näyttää!

Tämä vuosi on alkanut varsin hyvissä merkeissä, vastauksia on tullut jo yli 60. No, kohta tahti hidastuu ja kesän FM-kelit alkavatkin siintää mielessä seuraavaksi.

Vastaavasti täällä on tullut tänä vuonna vain jenkki vastauksia ja kaikki perinteisellä postilla. Vastausten määrä on 11 joten viime vuotisenkin alle 40 vastauksen tahti on menossa. Luulen kuitenkin että jatkuvasti huononevat vastaus prosentit vaikuttavat... siis alle 30 vastauksen jää vuonna 2005 ?!

Jep, lätkäkamat ja AM radio "naftaliiniin", ja FM radio esiin...

*Radio France* are to unveil plans for an all-

digital distribution network, at the Digital Radio Mondiale TM (DRMTM) consortium's annual

General Assembly meeting in Paris next week. Radio France, a DRM member since 2001, will transmit special preview DRM medium-wave/AM broadcasts of France Culture audio and multimedia content from March 7-11, to mark the announcement.

The new Radio France distribution network will provide listeners with a range of digital broadcasting technologies including DRM. Radio France will host DRM's General Assembly, Steering Board and committee meetings at its headquarters, Maison de la Radio, from March 7-10.

DRM members TDF and Thales are assisting with Radio France's special preview DRM broadcasts. TDF will transmit the Radio France broadcasts from its Villebon transmitting station, which is located approximately 20 kilometres southwest of Paris. TDF and Thales have modified an existing 300 kW medium wave solid state transmitter, from Thales' S7 family, for the DRM broadcasts.

"France's upcoming migration to digital radio necessitated our investment in a new distribution network that will work seamlessly with any digital broadcasting system, such as DRM, DAB, DVB and wireless Internet," says Sylvain Anichini, Deputy General Manager of Radio France. "We have designed a flexible networking system that allows for a range of options, without the constraints of long-term technological choices. This will enable Radio France to move forward in line with digital broadcasting's evolution, including domains such as source coding and datacasting." Over the past few years, Radio France has digitalized its production and archive sectors, following the same principle of designing open systems.

DRM Chairman Peter Senger heralded Radio France's news, saying, "The prospect of DRM broadcasts on Radio France is a significant development in the system's growth within Europe. I am delighted that DRM's members - who are broadcasters, network operators and manufacturers from around the globe - will

have the opportunity to experience Radio France's DRM preview in Paris next week."

## GERMANY

**Saarländischer Rundfunk** is to start a new mediumwave program soon. SR director Fritz Raff announced on February 21 an "information program" with a "mainly German-French character". Six times a day French news in cooperation with RFI will be broadcast. The program line-up will contain parliament coverage and the "Mezzora Italiana" program for foreign workers as well:

<http://www.sr-online.de/dersr/117/339598.html>

SR's release mentions only a "state-wide mediumwave frequency". Some years ago there were reports about **1179** to be used by SR with 20 kW. So it remains to be seen whether Deutschlandfunk will leave 1422 (but so far no such plans were hinted) or SR will bring up 1179 for the new program.

The media authority of Niedersachsen put **630**, the former Megaradio frequency at Braunschweig/Königslutter, on tender. The frequency will be allocated for two years only: [http://www.nlm.de/deutsch/aktuell/aus\\_mw.htm](http://www.nlm.de/deutsch/aktuell/aus_mw.htm)

Gossip has it that Voice of Russia is interested in using this frequency, hence the reallocation procedure now.

A new radio station is set to launch this April broadcasting from the heart of Slovakia to central Europe via a network of AM/FM transmitters. It will also be able to be heard further a field via Sky Digital and the Internet. At the start of the year we heard rumours of a new European based station, and I guess we thought it was a hoax.

There is often talk on the various radio forums about new International stations broadcasting from the high seas or beamed from the Netherlands - which never happen, and we could have easily dismissed this one too. However this new station is real and will be broadcasting from Poprad in Slovakia. Strange place you may well ask? - OK so it wouldn't be an obvious choice. However the team behind RTI have spent several months planning such a service - headed by Media Guru - *Eric Wiltsher*. SLOVAKIA

**RTI - Radio Tatras International** will offer international programming all originating and uplinked from the UK. The station is licensed by Ofcom with output servers based in the UK, as well. RTI will also have local affiliate stations around Europe who will focus on providing the best news, travel, weather services at the times when

it's most important to do that.

Each affiliate will all have studios of there own. RTI is set to launch on April 9th.

Mike Terry via DXLD yahooogroup (2/3-2005) New pan-European radio station **RTI** to launch on 9 April A new pan-European radio station has announced its launch date as 9 April. The station, known, as RTI, says it will be broadcasting to over 40 million people on **AM/FM in central Europe**, to the remainder of Europe via satellite, and around the world on the internet. No details of frequencies have been announced so far, but there is a tentative schedule online. One of the Directors of RTI is Eric Wiltsher, who will be bringing his Media Zoo programme to the station.

RTI gives its address as 1 Northumberland Avenue, Trafalgar Square, London WC2N 5BW, United Kingdom. E-mail: [info@rti.fm](mailto:info@rti.fm) [<mailto:info@rti.fm>](mailto:info@rti.fm).

Reception here in Haarlem, Netherlands of **Kismet Radio 1035 kHz**, Crystral Palace, London, UK. First time of reception was on 18/01/2005 on 18:10 UTC with Asian/Indian music style. Lot of interference from Estonia and UK stations. Daytime reception at 22/01/2005 on 11:39 with ID and also Asian music, interference by UK stations.

With greetings from *Ge Huijbens*, Netherlands via **EMWG** (23/1-2005)

After BBC Radio Kent had left the frequency, it was meant to carry a country based format. In 1994, a **Country Radio 10-35** went on the air. There were several changes in format and / orwnership reflected in names like **RTL Country**, **London Ritz Country** and **Mean Country**. In 2003, when the ownership was transferred to Sunrise Radio, the station was again relaunched as **Easy 1035**. Sunrise Radio finally decided to turn the station into an Asian

talk radio.

Garrison Radio, the British Army's own radio service, is launching a new transmitter in Scotland. Test broadcasts from Edinburgh on 1350 kHz mediumwave will begin on March 3. The launch date was posted by Alan Pennington on BDXC-UK. Garrison Radio is housed in the South West of the city, which is already home to two regiments; the Royal Scots (The Royal Regiment) and the Light Infantry, with plans for a third nearby in 2005. Before Edinburgh, Garrison Radio has been broadcasting over four low-power transmitters on 1287 kHz, and one on 1350 kHz.
